new era.

smarter education

Welcome to the New Era for Smarter Education

We're setting out to create the most valuable teaching and learning experience in the cloud. New Era are trusted education and technology experts providing high quality, easy-to-use, customer focused cloud solutions for over 15 years. As market leaders we pride ourselves on delivering educational tools which support millions of teachers, parents and pupils in thousands of schools around the world. Our team consists of over 400 staff, based in offices in the United Kingdom, Australia, New Zealand and the United States.

What does Smarter Education look like?

EDUCATION
Empowered teachers, inspired learners

DB Primary

Our all-in-one package to teach digital literacy in primary schools.

DB Primary gives your school a safe, closed, online learning environment to engage and educate the next generation of learners. Promoting digital literacy and online safety has never been easier with DB Primary, finally allow your teachers to save some time, help boost attainment and deliver anytime, anywhere learning.

- Bridge the gap between class work and home learning
- Set, track and mark work in one place
- Ready to use lesson plans and teaching tools
- Self-marking curriculum content
- Administration made easy

" *DB Primary has assisted us to support and prepare our children for their future, becoming confident users of technology ensuring they are ready to participate effectively in our digital world.* "

Carol Branch, St Augustine Roman Catholic Primary School

DB Learning Library

1000s of online resources to boost attainment from Reception to Year 6.

Need more resources? The DB Learning Library can be used at home or in class with multi-device activities mapped to the National Curriculum. We cover a range of subjects from Maths, English and Computing to learning events and PSHE. Our unique Pathways feature allows you to link resources together into sequences for easy planning and delivery, and our automatic marking will help save you even more time. You can even get creative with our custom activity builder!

| 45 | Teaching tools | 1,100 | Pupil activities |
| 150+ | Worksheets & planning guidance | 1 | Easy markbook |

Life

Easily create rich, engaging, customised online learning environments.

An innovative learning space for any age or stage, Life is a flexible cloud based platform enabling teachers and learners to communicate, collaborate and share online. Simply design, create and populate an online learning environment tailored to your school's requirements that can be accessed anytime, anywhere.

- Blogs
- Wikis
- Activities
- Quizzes
- Surveys
- Report Management
- Calendars
- Forums

> *Life enables me to bring so many resources together and share comments and feedback to encourage a love of reading for pleasure, as well as directing students to resources for study.*

Sheila Compton, Dame Alice Owens School, Hertfordshire

Learning Tracker

Support assessment, encourage reflection and celebrate success.

The Learning Tracker enables students and teachers to evidence their progress in learning while supporting assessment. Evidence of learning, in a range of formats, can be easily uploaded to demonstrate the skills of an individual student, a group or the whole class. Tag evidence against UK National Curriculum statements or custom frameworks, develop a learning dialogue with feedback or use colour assessment to track development.

- **Multimedia** Upload photos, videos, sound clips or simple anecdotal notes as evidence of progress.

- **Custom Tags** Customise your assessment scale to your school's individual needs.

- **Chart Improvement** Organise and analyse Learning Tracker data by student, time frame or subject.

- **Life Integration** Capture Life blog posts and forum discussions as learning evidence.

SchoolPing

The only app you need to connect your school with parents.

SchoolPing is our sleek and smart school communication app designed to save money. We know engaging parents is key to improving pupil attainment and building a whole-school community so why should it be difficult for schools and parents to stay connected? SchoolPing solves this problem by offering everything you need to keep parents in the loop!

- ✉ Unlimited Messages
- 📎 Attach Files
- 〰 Message Analytics
- 🪙 Save on Printing Costs
- 👥 Parents' Evening Booking

- 📅 Inbuilt Calendar
- ⤳ MIS Integration
- 🖌 School Branding

" I love getting live updates on my daughter's progress straight to my phone. It's lovely to see what she is doing in school each day. "

Marianne Corney, Gossops Green Primary School, Crawley

Websites

User-friendly, mobile-friendly, budget-friendly websites for schools and academies.

Your website is your school's most valuable tool to create a great first impression to prospective parents while also sharing information with your school community. Give yourself the best online presence with help from our expert website team. Over the years, we've worked with 500+ schools and academies to create modern, user-friendly websites that fit their unique objectives and meet Ofsted requirements.

🔧 Build Service
Short on time? Our website team specialise in building Ofsted-ready websites for every type of school.

✏ Easy Editing
With our intuitive visual editor, building your website is child's play. Simply drag and drop pictures, text and other rich media into place.

▧ Unlimited Pages
Create as many pages as you need with an extensive range of easy-to-use templates including gallery, column and homepage layouts.

🐦 Website Widgets
Keep your school community informed with calendar, noticeboard, Twitter feed and Google Translate widgets.

able +

Introducing the latest innovation from New Era, Able+. Managing your IT services has never been easier with the newest stage in cloud education development. Our suite of six cloud applications pulls together the educational tools, resources, content and analytical data you need and allows you to access them anytime, anywhere, from any device, through a single secure login. Able+ works with third party resources including Office 365 and GfE so you can consolidate all your software requirements into one. Get ready for the new era for smarter education!

Teach, learn, communicate, assess and manage smarter with Able+

Cloud

The smart, streamlined, centralised way to manage and control IT services, across one or many institutions.

Connect

Bring teachers, students and parents closer together with our unique communication and engagement platform.

Learn

This is course delivery made simple. Teachers can quickly set assignments for students to complete and submit online.

Assess

Assessment becomes truly powerful with evidence of learning. Record and monitor performance to prove progress.

Perform

Now you can manage your team's performance and development alongside your students'.

Services

Our managed IT services give you improved security and scalability, while cutting the cost of hardware, staffing and licensing.
