

Web developer and graphic designer To Venture Arena Project

Venture Arena is Sweden's largest event matching competences and investments with startups in the East Sweden region. It is a joint project between LEAD and LiU Innovation and the next event is set to May 11.

We are transforming the Venture Arena concept and re-working our graphical footprint and web page. This is the perfect opportunity to make a long-term footprint by creating our new graphical profile and website.

Your personal criteria

- Creative, creative and creative
- Also, a doer that can co-work with a small team
- Interested in a short employment with full focus for a month or so

Your professional profile

- You need to love to create webpages with attractive and intuitive design
- We need you to be sharp in graphical design and development according to WCAG 2.0
- You master WordPress and design programs
- We want you to value UX and want to create a page leading to both retention and returning to the website.
- We are happy if you are self-motivate, but social
- You are inspired by innovation forces and creativity

This person will be sitting with us, to bounce ideas and concepts, in Mjärdevi or at "Strykbrädan" in Norrköping during most of the time. This is a minimum 75% temporary employment related to this specific project and last 4-6 weeks.

We are

A small group of innovative and creative project members, with the startup community at heart, looking for a member to help us out. We will support you with all means possible but need you to be the one to make the magic happen.

We are ready to start you off as soon as you are. The website is preferably up and running by middle of March. Showcase your portfolio and your letter of interest to louise.lennersten@lead.se
